Electro-Sensors, Inc.
Machine Monitoring Sensors & Hazard Monitoring Systems
HazardPRO™
Wireless Hazard Monitoring

Revolutionizing the way the industry monitors critical applications.
HazardPRO

- Time and Cost Savings
- Over 40 Systems installed
- Installations in Mexico, USA and Canada
- Includes onsite support from the beginning through commissioning.
Plant Control System
- Modbus TCP/IP / Ethernet IP
- Control Relays “Run/Stop”
- Control Switches “Run/Stop”

Any device, anytime, anywhere.
View status, receive and respond to alerts, silence alarms, or shut down equipment.

Remote Access
- PC/Laptop
- Tablet
- Smartphone
Transmitter Node

- Up to Class 2 Div 1 Approvals
- No external power
- 5+ year battery life
- 5 year Warranty
- Quick connect sensors for easy installation & equipment maintenance
- 6 inputs for bearing/alignment/ancillary equipment, 2 inputs for ambient temperature, 1 input for speed, 1 input for contact
System Manager

- Wireless Gateways
- Relay Contacts (Alarms)
- Remote Access & Alerts
- Modbus TCP/IP Integration
- HMI
Thank you!
