ABOUT IAOM

The International Association of Operative Millers was organized in 1896 to provide educational opportunities in the technological and managerial endeavors of the grain processing industries. The organization operates on an international basis, and its membership is divided into districts and regions for furthering the localized interests of the milling community.

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

IAOM is committed to creating better millers, better companies and a stronger industry. We have educational, technical and networking opportunities at every level to ensure that you get the most from investing in an IAOM membership.

IAOM is the only organization solely dedicated to the advancement of technology in the flour milling and cereal grain processing industries. Our members come from every region of the world, representing leading milling companies, processors and allied industries.

At IAOM, we understand the passion that drives you. Everything you do is about operational excellence and creating a high-quality product. Our mission is to provide you an international forum where you can

- Learn Best Practices
- Network with Colleagues
- Exchange Ideas
- Develop Professionally

IAOM exists to help you get better at what you love to do!
